Hans Pistor, President  
Fitzgerald Construction, LLC  
1825 S. Orange Blossom Trail  
Apopka, FL 32703

Dear Hans:

As you are aware, in 2010 I purchased a Dollar General store in South Florida with a new lease obligating me as landlord to gain approval for the expansion of the store and to undertake a complete remodel as well.

You and your team at Fitzgerald Construction, LLC guided the project through a difficult local Planning Department, received approval, and built in an extremely efficient manner with excellent quality workmanship. The project was delivered on budget as prescribed in the lease and all hurdles were navigated very intelligently. Throughout the process, timely updates were provided and the tenant was happy at all times, as they desired to remain open for business during the intensive construction period. There is a definite reason why Dollar General looks to you and Fitzgerald Construction for such projects.

I would not hesitate to recommend Fitzgerald Construction to anyone, given your development and construction expertise. If you should need to, please have any new clients contact me if they desire further information regarding my positive experience.

Sincerely,

Greg Harris
